Dear Students,

Here we are! Time to start the second semester of the Second Year.

Again, in this brochure you will find information useful to plan your study.

It is very important that you plan your studying schedule very well in advance to stay on track and pass the blocking exams. In case of problems, ask for support AS SOON AS POSSIBLE to take care of potential issues.

We all hope you will enjoy the new courses!

Yours,

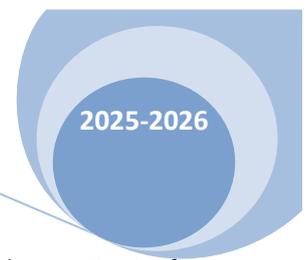

Second year, Second Semester's Teachers

Courses and modules

Integrated course	Modules	Teacher	CFU	Hours	Lectures
506516 - BIOLOGY OF DISEASE	501709 - GENERAL PATHOLOGY	Sébastien Jaillon Maristella Maggi	4 1	32 8	16 4
	506518 - GENERAL PATHOPHYSIOLOGY	Claudia Scotti	1 1	8 8	4 4
	501708 - IMMUNOLOGY	Claudia Scotti	4	32	16
	508092 - LABORATORY OF IMMUNOLOGY A	Hugo de Jonge Martina Sarchi	1	12	1
	508093 - LABORATORY OF GENERAL PATHOLOGY A	Arianna Palladini	1	12	1
	509628 - LABORATORY OF HISTOPATHOLOGY	Arianna Palladini	1	12	1
Total			14	124	50
506708 - LABORATORY MEDICINE	501722 - CLINICAL BIOCHEMISTRY	Giovanni Palladini Mario Nuvolone	4 1	32 8	16 4
	508094 - LABORATORY OF CLINICAL GENETICS	Edoardo Errichiello	1	12	4
Total			6	52	24
501710 - MICROBIOLOGY	506517 - BACTERIOLOGY AND PARASITOLOGY	Piazza Aurora Enrico Brunetti	3 1	24 8	12 4
	504495 - VIROLOGY A	Daniele Lilleri	1	8	4
	504496 - VIROLOGY B	Daniele Lilleri	1	8	4
	506513 - CLINICAL MICROBIOLOGY A	Fausto Baldanti	1	8	4
	506514 - CLINICAL MICROBIOLOGY B	Fausto Baldanti	1	8	4
Total			8	64	32
Total CFUs			28	240	100

* Second semester coordinator. Legend: CB and PR: Docente a contratto; PO: Professore ordinario; PA: Professore Associato; RD: Ricercatore a tempo determinato RC: Ricercatore confermato; ND: Personale tecnico; AdR: Assegnista di Ricerca.

Office time and meeting place for students

<i>Teacher</i>	<i>Office hours for students</i>	<i>Address and room</i>
Fausto Baldanti	Please, make an appointment in advance by email.	Microbiology and Virology Unit IRCCS Policlinico San Matteo Foundation Viale Golgi 19 Padiglione 30, Underground floor
Enrico Brunetti	Please, make an appointment in advance by email.	Department of clinico-surgical, diagnostic and pediatric sciences Unit of Infectious and Tropical and Hepatology IRCCS Policlinico San Matteo Foundation
Sebastien Jaillon	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Immunology and General Pathology, Via Ferrata, 9 (First floor)
Mario Nuvolone	Please, make an appointment in advance by email.	Laboratory of Biochemistry, Biotechnology and Advanced Diagnostics, Forlanini Bldg, IRCCS Policlinico San Matteo Foundation Viale Golgi 19 III Floor
Giovanni Palladini	Please, make an appointment in advance by email.	Clinical Biochemistry, Centro per lo Studio e la Cura delle Amiloidosi Sistemiche Padiglione Forlanini Fondazione IRCCS Policlinico San Matteo Viale Golgi, 19
Arianna Palladini	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Immunology and General Pathology, Via Ferrata, 9 (First floor)
Claudia Scotti	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Immunology and General Pathology, Via Ferrata, 9 (First floor)
Maristella Maggi	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Immunology and General Pathology, Via Ferrata, 9 (First floor)
Giorgia Zadra	Please, make an appointment in advance by email.	IGM-CNR, Via Abbiategrosso, 207 27100 Pavia (Entrata da Via Ferrata 9A, chiedere centralino)
Carlo Gaetano	Please, make an appointment in advance by email.	Laboratory of Epigenetics Istituti Clinici Scientifici Maugeri Via Maugeri 4, 27100 Pavia
Edoardo Errichiello	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Human Genetics,

		Via Forlanini, 14 Ground floor
Daniele Lilleri	Please, make an appointment in advance by email.	Microbiology and Virology Unit IRCCS Policlinico San Matteo Foundation Viale Golgi 19 Padiglione 30, Underground floor
Martina Sarchi	Please, make an appointment in advance by email.	Department of Molecular Medicine Unit of Immunology and General Pathology, Via Ferrata, 9 (First floor)
Aurora Piazza	Please, make an appointment in advance by email.	Microbiology and Clinical Microbiology Unit Viale Brambilla 74 First floor, First door on the left (label on the door)

Teaching Calendar

Courses starting date:

2nd of March 2026

Calendar

The U-planner teaching calendar for your course is available at this link:

<https://unipv.prod.up.cineca.it/calendarioPubblico/linkCalendarioId=6131de259f5a940011ad7e93>

Please, keep it constantly under control to be updated about possible changes in due course.

Holidays

Easter Holidays: 2nd April-7th April 2026.

Please, notice that in the week from the 6th to the 10th of April, only laboratories will be hold and not lectures, so that you can focus on revision for the **Immunology partial**, set on the **13th of April**.

Bank holidays: 1st May, 1st-2nd June 2026.

Laboratories

Laboratories and **tutorials** will be organized in the afternoon for several modules:

Laboratory of Clinical Genetics: please, take your laptop with you!

Laboratory of Immunology

Laboratory of General Pathology

Laboratory of Histopathology

Students will be split into groups, that will be communicated during the courses along with locations.

Please, notice that the Laboratories are MANDATORY and integral part of the courses they refer to.

IMPORTANT: Attendance

Please, note that the Harvey course has **MANDATORY** attendance.

For the **Biology of Disease** course, you are required to attend the following percentage of lectures:

75% for Immunology

75% for Pathology, which would include General Pathology, General Pathophysiology and the Histopathology Lab.

75% for Laboratory of Immunology

75% for Laboratory of General Pathology.

If you fail the minima, you will be required to do extra work for the exam.

Please, also note that the content of the laboratories will be assessed within the final exam.

For **Laboratory Medicine** and **Microbiology**, rules will be communicated at the beginning of the course.

Please, notice that attendance rules are currently under revision and any change will be communicated at the beginning of the courses.

Attendance will be checked by the teachers using the “MyUniPV” App, available for free on Google Play and Apple Store. Please, download and install it on your mobile phone in case you have not yet done so. Access requires your credentials. Alternatively, you can access the check-in procedure at the following link:

<https://unipv.apmobile.cineca.it/>

In case of health or other types of issues that you expect will prevent you from attending classes for prolonged periods, you are invited to immediately contact the teachers and/or the second-year coordinator to clarify the situation. Please, note that you will be required to prepare and provide documents demonstrating your current issue (for example, illness) in order to justify your absence to the teachers and to the Dean of the course. They will then suggest you the best course of action

Well-being and disability

At Harvey, we very much care about your well-being: we want your studying experience to be challenging, but enriching both from the scientific and the human point of view. In case you experience stress or other problems which challenge your physical and mental well-being, please contact the second-year coordinator (claudia.scotti@unipv.it), C.O.R. or Prof. Gabriele Ceccarelli (gabriele.ceccarelli@unipv.it) to ask for suggestions. A psychological support is also available from C.O.R. Ways to access it are available here:

<https://medicineandsurgeryharvey.cdl.unipv.it/en/services/counselling-and-healthcare>

If you have a disability, this link is for you:

<https://saisd.unipv.it/index.php/en/>

Syllabus and course material

In [Syllabus](#) you will find the details of each course you are going to attend.

The teaching material is located on the [Kiro](#) Platform and each teacher will arrange any other forms of extra material that will need to be provided to you.

Exams

Exam schedule

Exam dates along with locations are published in ESSE3.

Exam modalities

Exams will be in various format: oral interview, written examinations on paper or, alternatively, at the computer through the Kirotesting platform, the twin of Kiro, in which case they will typically be held in a computer room.

Please, inform the teachers as soon as possible in case you have specific requirements (e.g. disabilities), which require special organization of the exam sessions.

Lecture theatre

Aula G.R. Burgio

IRCCS Policlinico San Matteo

Clinics of Pediatrics

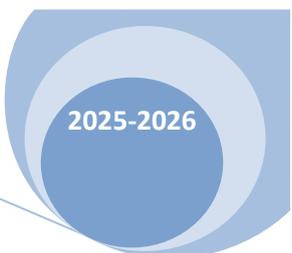

Building n. 31

First Floor

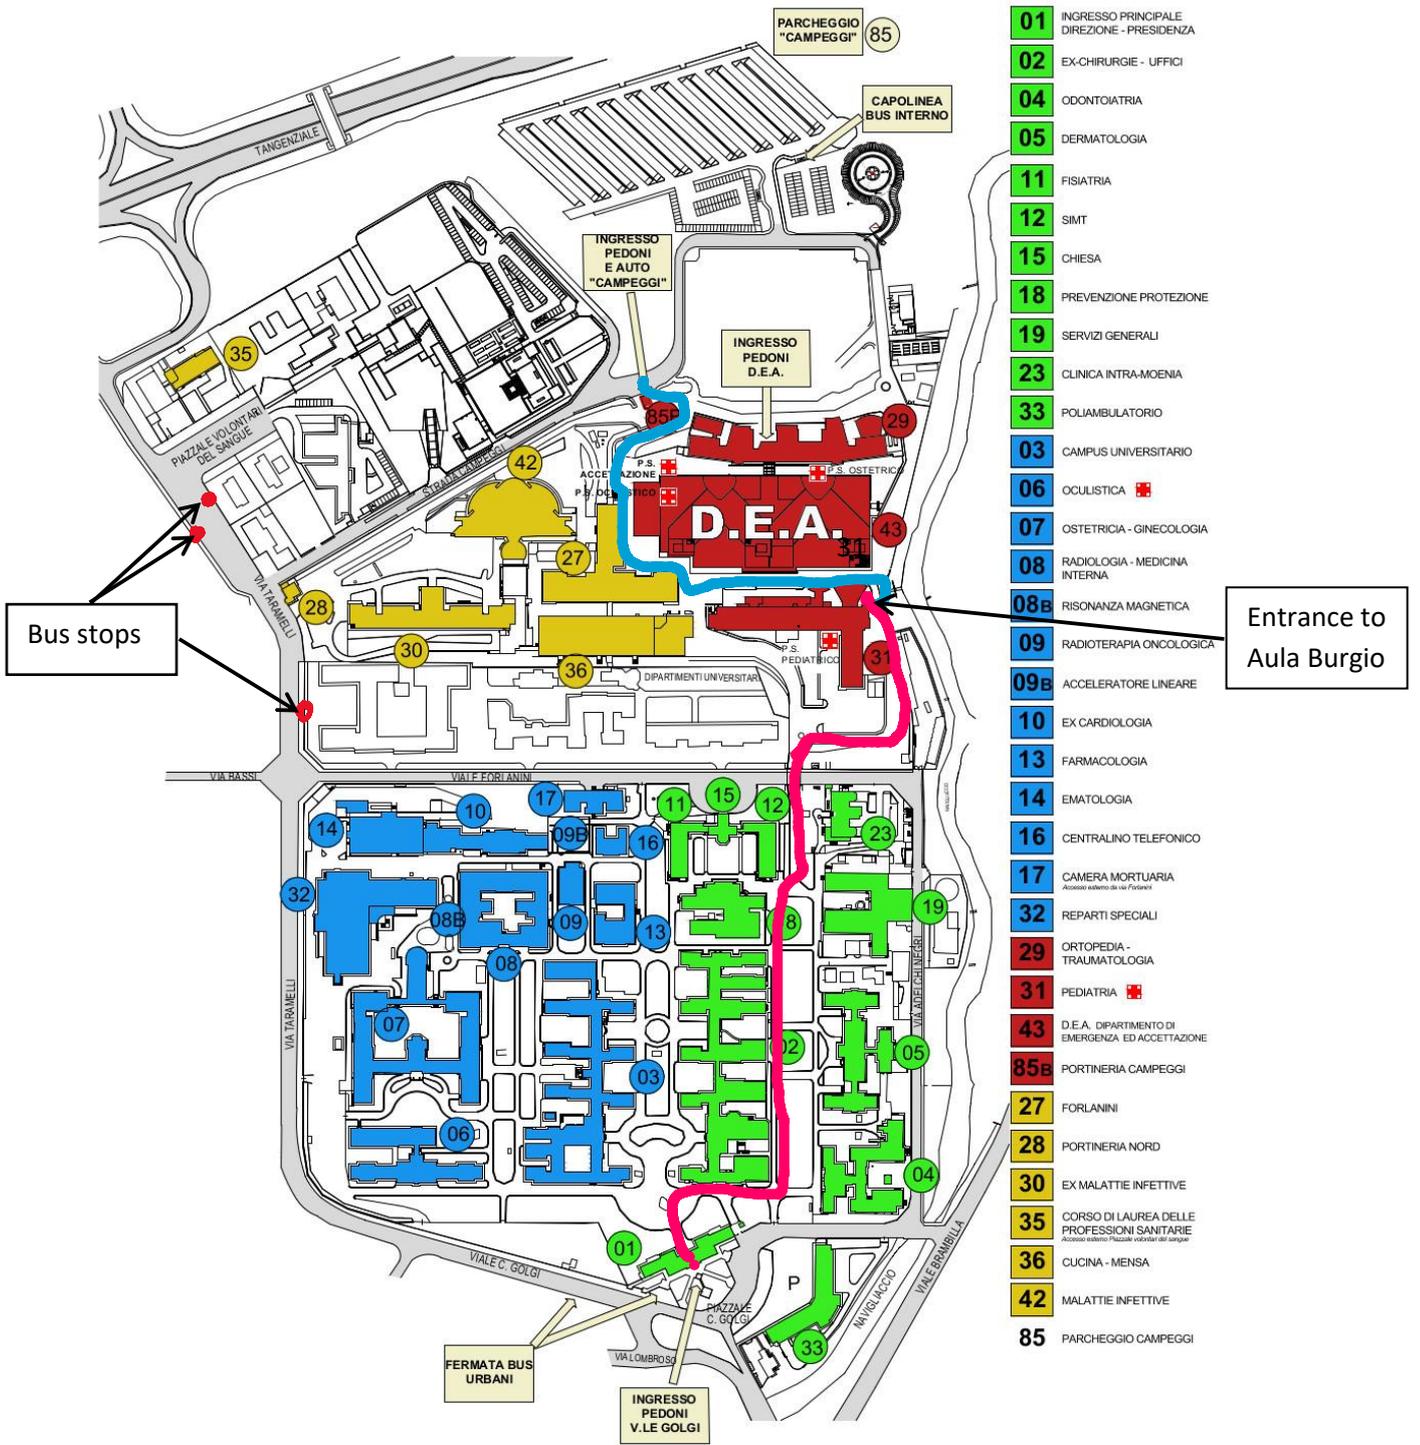

Maps and indications to reach the lecture theatre

The “Aula Burgio” Lecture theatre is located inside Policlinico San Matteo. The main entrance to the hospital is located in Piazzale Golgi, 2, but you can also access it from Via Campeggi (“Ingresso DEA”) and, soon, through an entrance dedicated to the students. Here are a satellite view and a map to help you orientate yourself:

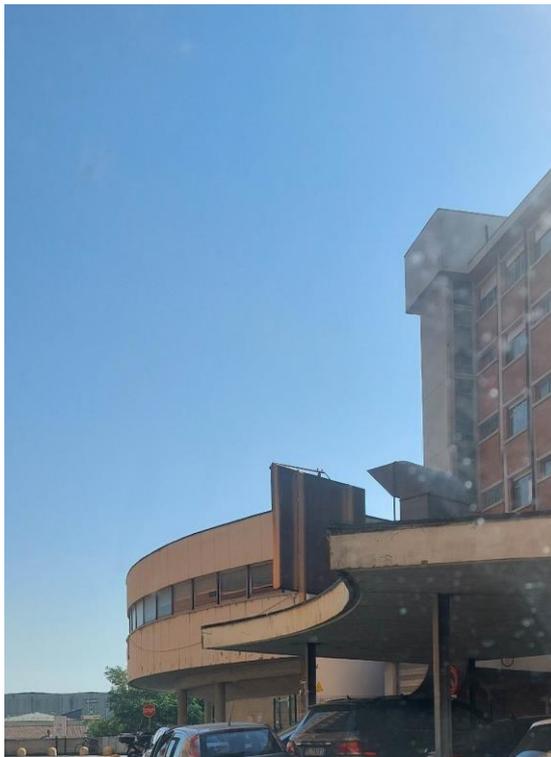

Below, in blue and fuchsia the routes you can take ON FOOT to reach Building 31 (Pediatrics) starting from the entrances in Via Campeggi and in Piazzale Golgi, respectively.

If you have a car, you must park it outside unless you have a disability. If you need to apply for a disability permit, please, contact the Disability Office of the University in order to have indications on how to proceed. The parking lot “Parcheggio Campeggi”, n. 85 on the map, is a fee-based service.

The “Aula Burgio” lecture theater is located at the first floor of the Paediatrics Clinics building. Here are some pictures to help you find it in case you arrive from the entrance in Via Campeggi. Below, on the left, a picture of the outside of the Clinics, Building n. 31. The curved part corresponds to Aula Burgio. Following this curved part, you will find the small block in the red circle, which contains the entrance to the stairs which lead to Aula Burgio.

On the outside of the block, on your right, you will find the indication to Aula Burgio (red circle, picture on the left, below), and, in front of you, the entrance door (picture on the right, below). After the door, you will find the stairs on your right.

The stairs are on your right, behind the wall. Go to the first floor and enter the door you find on your right. Turn right again and you will find the entrance door to Aula Burgio.

Welcome to the inside of Aula Burgio!

Prof. Burgio

Prof. Burgio was an important paediatrician. Here you can find his short biography in English, introduced by a paragraph in Italian:

<https://ordinemedicipa.it/notizia.php?tid=1716>

Laboratory LE1 and LE2

Department of Molecular Medicine
Via Torquato Taramelli, 3B

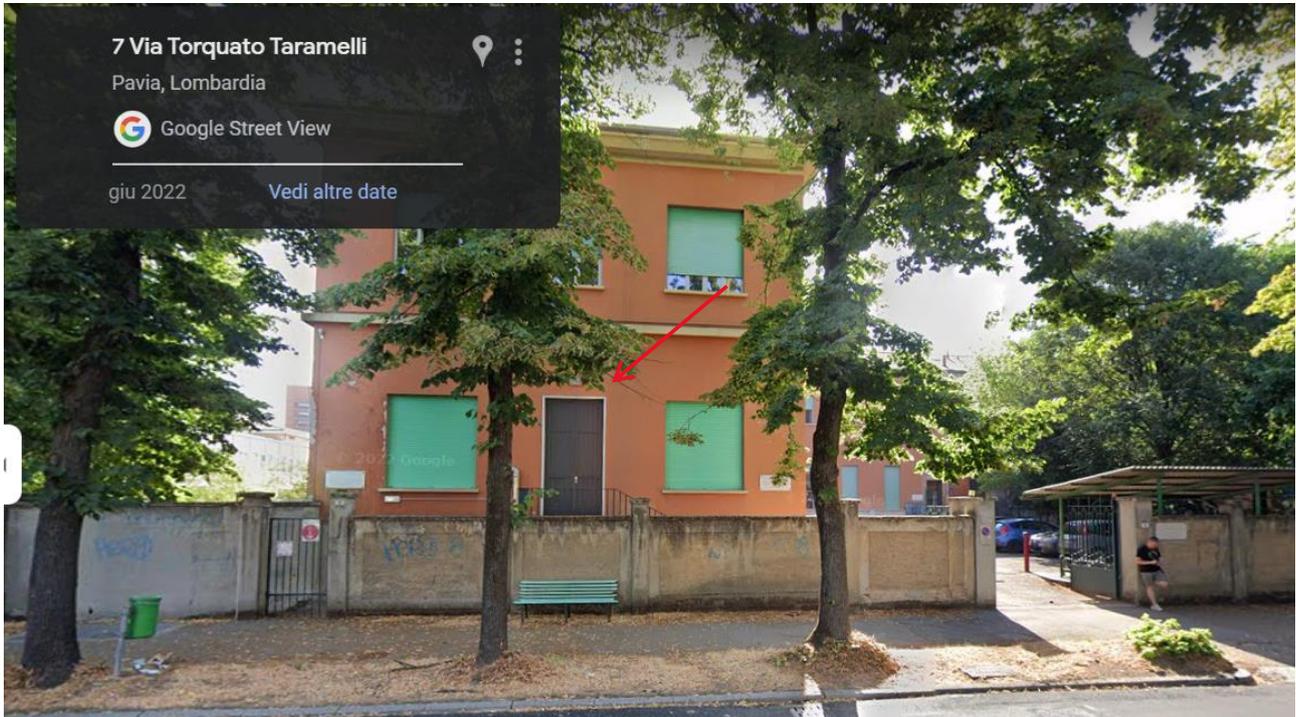

You will have access to the new Teaching laboratories, which include the most advanced and sophisticated instrumentation for cell and molecular biology:

<https://medicinamolecolare.dip.unipv.it/it/didattica/laboratori-didattici>

The laboratories are located in the Biochemistry building:

The door leading to the LE2 Laboratory is the one at the top of the stairs (read arrow in the figure below). On the same floor you will find toilettes.

By Claudia Scotti, 18th February 2025
